

AUTOMATION FAIR 2009

November 11-12 • Anaheim, California USA

THE PREMIER EVENT FOR AUTOMATION AND CONTROL INFORMATION, SERVICES, AND SOLUTIONS.

Successful companies striving to achieve a competitive advantage in the global marketplace continuously seek new ways to leverage the enormous potential of their manufacturing operations. Whether it's power, control, or information systems that give you an advantage, today's global manufacturing leaders know that optimized production is the path to increased profitability.

Automation Fair is the premier industry event focusing on advanced automation products, integrated control and information architecture, valued-add services and solutions.

Learn how to:

- improve your product's time-to-market
- increase your company's profitability
- develop asset management and optimization strategies
- manage manufacturing business risk

At Automation Fair, many targeted industrial forums and labs will provide a fantastic educational experience for professionals at all levels. The complete program includes over 50 Technical Sessions, more than 20 Hands-On Labs and 8 Focused Industry Forums. More than 100 Rockwell Automation Partner companies are expected to display their latest innovations and products. The Fair will be held at the Anaheim Convention Center on November 11 and 12, 2009.
